

Certificate Course

Medical Aide: Home and Hospital Based

About the Course

The “Medical Aide - Home and Hospital Based” course is a transformative journey aligned with SDG 3, empowering compassionate health heroes to bridge the healthcare gap and provide quality care in homes and hospitals. This course covers essential health techniques including first aid and supportive care for the elderly, infants, children and people with special needs. It teaches students about supportive care of common chronic medical conditions, social and psychological aspects of caregiving. By responding to the call for health heroes, graduates embrace a noble mission of making a tangible difference in the lives of others, creating a brighter and compassionate future where health intersects harmoniously with care and accessibility.

Duration:

28 Weeks

Language:

English

Mode of Delivery:

Blended Mode (Online and Face-to-face)

Admission Requirement:

A candidate who has a PASS on Ordinary Level Secondary Education Certificate shall be eligible to join and pursue the course.

The Course seeks to:

This 28-weeks "Medical Aide - Home and Hospital Based" course reflects Mwanza University's unwavering commitment to enriching the knowledge, skills, and collaboration within the healthcare community

At the core of our "Medical Aide - Home and Hospital Based" program lies a commitment to transformative action. We are dedicated to providing high-quality medical aide graduates expending cutting-edge techniques, aiming to inspire positive changes in medical aide provision at home, hospital and community, maximize the impact on patients' lives, and foster holistic well-being. Through collaboration with healthcare professionals, policy experts, civil societies, and the public, we strive to reshape the way medical aide services are delivered, ensuring that they are responsive to the unique needs of the individuals we serve. Emphasizing trust and co-ownership, we democratize access to medical data and empower professionals and communities to make informed decisions, fostering a future where healthcare processes and policies are truly patient-centric and compassionate.

Requirement for Course Completion

Mwanza University will provide a certificate to the participants upon successful completion of the course. This would entail:

- > 80% classroom attendance,
- > Active class participation,
- > A minimum 50% score on module-wise assessments, and
- > Submission and assessment of final project and field works

Course Highlights

Comprehensive Healthcare Skills

Participants gain a diverse range of healthcare skills, including home-based care, first aid, hospital support, care for the people with special needs and wound care.

Real-Life Application

The program emphasizes practical application through practical training and case studies, allowing learners to apply their knowledge in real-world scenarios.

Patient-Centric Approach

Participants are trained to provide compassionate and patient-centric care, recognizing the unique needs and well-being of individuals.

Collaborative Learning

Learners engage in collaborative learning environments, benefiting from peer interactions, group discussions, and team-based activities.

Empowering Professionals

The course empowers professionals to be healthcare allies, contributing to a healthier and more inclusive society.

Alignment with SDG 3

The program aligns with Sustainable Development Goal 3, striving for "Good Health and Well-being" for all.

Holistic Well-being

Emphasizing trust and co-ownership, the course fosters a future of patient-centric and compassionate healthcare processes and policies.

Transformative Journey

Participants embark on a transformative journey, equipping themselves to be health heroes in their communities.
